## Cashier

I have been working as a cashier in some shops and department store retailers for around 5 years since I finished high school. The cashier job is not completely easy, I must make sure that the number of money to keep in the machine is accurate. The same thing is for the change money given to customers. That must be right also to avoid any complaints coming from them. I'm sure I like this job

## EXPERIENCE

2017 - 2018

**Larana Market**

- Working in the Larana market for around a year and a half is a great experience for me. I learned about many things including money management and how to communicate well with customers.

2018 - 2020

**Salford Restaurants**

- With my experience as a cashier in the Larana market, I was confidently able to get the job in the same position. After being accepted, there were many challenges I must face. One of them was that my customers were mostly coming from Asia, particularly China, Korea, and Japan. Even I once faced a customer who could not speak English at all.
